

# NHMMHA Presents Installation Standards Training

NH Manufactured and Modular Housing Association PO Box 451, Concord, NH 03302

In accordance with RSA 205-D, all individuals who install ("set up") manufactured housing will be required to be licensed. The law states that in order to be licensed, installers must complete 6 hours of approved installation standards training.

On February 3, 2006, the State Manufactured Housing Installation Standards Board (MHIB) approved a course curriculum designed by the New Hampshire Manufactured and Modular Housing Association for installation standards training.

NHMMHA is offering this course to all individuals interested in obtaining a manufactured housing installers license. Classes will be filled on a first come, first served basis.

The course will be taught by James J. Bianco, Jr., NHMMHA's legal counsel for over 25 years, and Peter Haynes and James Baird, both highly experienced installers.

Classes are expected to fill quickly—please send in your registration form today. Questions? Call 603-629-9369.
